Scott Wallace Earns Certified 203k Contractor Designation

Westminster, MD. January 5, 2012. Scott Wallace of Dun-Rite Contractors has completed the construction/remodeling industry's most comprehensive training in the use of the U.S. Government's FHA 203k Home Renovation Loan program.

Section 203(k) is a program of the US Department of Housing and Urban Development (HUD) for the rehabilitation and repair of single family properties. The program allows home buyers to purchase homes in need of repair with just one mortgage loan to finance both the purchase and the repair of the home.

"A 203k Renovation Loan offers tremendous opportunities today for many consumers to tap into government insured rehab funds," explains Scott. "Until recent years, there has been limited use of this program and little awareness of the opportunities it offers the current economy. By becoming a Certified 203k Contractor, Dun-Rite Contractors is going to change that."

Dun-Rite Contractors, based in Westminster Maryland, specializes in light commercial and residential construction including handy-man services, household repairs, remodeling and home additions. Dun-Rite Contractors is a licensed MHIC and a lead safe renovator.
